Titolo: Electrical System Engineer

Descrizione:

The Electrical System Engineer primary role is to ensure that the electrical systems (power supply, propulsion system, auxiliary power supply, battery system) fulfill all requirements. This consists of the following: - Specify the system requirements and document the system solutions - Support Supply Management with all technical documentation necessary for a successful sourcing of the system and conduct technical evaluation of supplier bids - Ensuring that technical risks of the system are identified and strategies for mitigation of the risks are developed - Lead a successful integration (electrical, functional and physical) of the system - Ensure system verification with supplier and conduct type test with customer Key result areas and approximate time: For the system: delivering the particular deliverables of the project, with the resources committed in the Blue Book 20% Making the technical evaluation of tenders from system suppliers and recommend supplier from technical point of view 20% Ensuring proper integration of the system (electrical, functional and physical) and manage interfaces to other parts of the train 30% Ensuring technical compliance with both the customer specification and the regulatory authorities demands 20% Planning the system work packages together with the Vehicle Engineer 5% Executing the project tasks according to BES and project specific rules and regulations 5% Knowledge and experience (including educational level): System knowledge in power supply, propulsion, auxiliary and battery systems. Experience from international projects, product development, vehicle knowledge >3-5 years work experience B.Sc. or M.Sc. in Electrics or Physics Engineering Skills and Competencies: Strong communications skills, structured and independent working skills Perfect skills MS Office, knowledge MS Project Working skills in English Together with Project & Vehicle Engineers decide on technical requirements and technical solutions recommend suppliers based on technical evaluation. www.engineeringpartner.se

Lingue richieste: (ENGLISH-fluent)

Informazioni geografiche

Paese:	Svezia	**Regione :**	Västra Götaland

Retribuzione / Contratto

Ore alla settimana: 40

Tipo di contratto: PERMANENTE + TEMPO PIENO

Spese extra

Alloggio fornito:	No	**Spese di risistemazione:**	No
Pasti compresi:	No	**Spese di viaggio:**	No

Esigenze

Livello di istruzione richiesto: Formazione tecnica avanzata

Qualifiche professionali richieste: Sì

Esperienza richiesta: Tra 2 e 5 anni

Datore di lavoro

Nome: Engineering Partner

Informazione: Peter Johansson

Indirizzo: Box 901 Åkerssjövägen 10, 461 30 Trollhättan, Sweden

Telefono: +46-520-175 10

Fax: +46-520-48 84 09

Email: peter.johansson@engineeringpartner.se

Come sollecitare l'impiego

Come sollecitare l'impiego: Lettera + CV al DATORE DI LAVORO
